CUSTOM SOLUTIONS

Joingo IB is designed to be easy to use for the Admin and the client. We offer additional custom solutions that can be added to your software package!

WEB SOLUTIONS

We will work with your existing hosting company to ensure a seamless integration with your existing website. Don't have a website? We offer website services too!

PAYMENT SOLUTIONS

We support several payment gateways and can readily support most payment gateway API's. Payment is seamlessly integrated into your website!

ADMINISTRATIVE TOOLS

The administrator can easily create programs and manage the attendees. Wait Lists can be created for each course, attendees can be allowed into a class from the waitlist, payment can be applied, and attendees can be transferred from one class to another or withdrawn from a class completely. Notifications can be sent out using multiple criteria and reporting on your daily transactions and payments is easy!

USER EXPERIENCE

Users are walked through our easy to use interface allowing them to enter their information and register for multiple programs from multiple sessions if desired. Payment is accepted on the website. The My Account feature allows account holders to enter their attendee information, manage their own data and keep track of their purchases. It's simple and straight forward!

"I can't believe how easy Joingo was to learn and how quickly we were up and running. Plus, IBARMS no longer has to pay a transaction fee with every sale. Joingo has been an affordable and perfect solution to all our registration needs." -- Lori Dowd, IBARMS
